### Feed Module and Separation Roller Guidelines for the i600/i1800 Series Scanners Consumable Kits

The following table provides a guideline of how often to change the feed module, separation roller, pre-separation pad and tires. Extra tires are provided in the event one is damaged during replacement.

- **Feed module and separation roller tires:** tire life will vary depending upon paper types, environment and cleanliness. Nominal tire life is approximately 500,000 pages; results will vary. Degradation of feeder performance, multiple feeds, stoppages, etc. indicate a need to change tires. Change all tires on the feed module and separation roller at the same time.
- **Feed module and separation roller kit:** it is recommended that you install a new feed module approximately every 7<sup>th</sup> tire change. Install a new feed module and separation roller at the same time.
- **Pre-separation pad:** change each time you change the feed module, separation roller or change the tires.
