Feed Module and Separation Roller Guidelines for the i600 Series Scanners Consumable Kits

The following table provides a guideline of how often to change the Feed Module, Separation Roller, Pre-separation Pad and tires. Extra tires are provided in the event one is damaged when replacing tires.

- **Feed Module and Separation Roller Tires:** tire life will vary depending upon paper types, environment and cleanliness. Nominal tire life is approximately 250,000 documents, results will vary. Degradation of feeder performance, multiple feeds, stoppages, etc. indicate a need to change tires. Change all tires on the Feed Module and Separation Roller at the same time.
- **Feed Module and Separation Roller Kit:** it is recommended that you install a new Feed Module approximately every 7th tire change. Install a new Feed Module and Separation Roller at the same time.
- **Pre-separation Pad:** change each time you change the Feed Module, Separation Roller or change the tires.
